Experience

UX/UI Designer (Internship) | Vosyn | Toronto, ON | June 2025 – Present
• Leading UX research, usability testing, and design iterations to enhance user experience within an AI-driven media platform.
• Designing and testing a new community integration feature to strengthen engagement between users and creators.
• Collaborating with developers and stakeholders to refine the design system, improve accessibility, and ensure a cohesive user journey.

Office Administrator | Self-Employed | Toronto, ON | April 2021 – Present
• Managed client communications, scheduling, and documentation with a focus on efficiency and customer satisfaction.
• Implemented process improvements that boosted scheduling efficiency by 20% and improved service reliability.
• Strengthened organizational workflow through digital tools, teamwork, and proactive communication.

Projects

Klara – AI Skincare App | UX Researcher & Designer
Developed a personalized skincare app where AI analyzes facial scans to generate tailored skincare routines. • Reduced routine creation time by 10 seconds and improved onboarding clarity.
• **Tools:** Figma, FigJam, Miro

After Breast Cancer – Nonprofit Website Redesign | UX Researcher & Designer
Redesigned the website for a nonprofit supporting breast cancer survivors to enhance accessibility and readability.
• Improved readability by 20% and reduced booking time by 15 seconds.
• **Tools:** Figma, FigJam, Canva

Coral Reef Conservation – Environmental Awareness App | UX/UI Designer
Created an app prototype to raise awareness about coral reef restoration and encourage donations. • Designed an interactive flow showcasing the coral planting process, increasing educational engagement.
• **Tools:** Figma, Miro
